## Work Experience

- May 2023 - Present **Full Stack Developer**, *Fetchly*, Remote  
Currently working with a wide-variety of projects with different technologies, like Ruby, Python, Typescript, React and Vue.
- Oct. 2022 - Mar. 2023 **Frontend Developer**, *Compass UOL*, Remote  
Worked on my first international project, focused in accessibility for blind people, had to dive deep into HTML semantics and how screen readers app do things. The project is an e-commerce, built React and Oracle Cloud Commerce for defining the overall commerce structure.
- May 2021 - Apr. 2022 **Full Stack Developer**, *Zella - Sistemas Inteligentes*, Barra Bonita - SP  
Helped creating a culture in the company, defining some basic gitflow and general configuration related to CI/CD. Also started building an Angular + .NET ecosystem, creating internal libraries and tools.  
The most expressive project in the company was a real time web app using mqtt + raspberry pi for a logistics automation project.
- Jan. 2020 - Dec. 2020 **Intern Developer**, *Zella - Sistemas Inteligentes*, Barra Bonita - SP  
Mostly studying C# and the web basics (JavaScript) and Desktop using Windows Forms. Helped building internal tools for the company.
- 2018 **Startup Google - Regional Highlight**  
We built a prototype to show events and shows in the region, the idea was to give the users a list where they could confirm presence and have a list to see all the next shows.  
Our team got the regional highlight achievement developing a prototype with the proposed theme.
- 2018 **Volunteer Work**, *Barra Bonita - SP*  
Helped volunteers on a scholar project, helping elderly people starting using the internet and how to use the basics of the Office Package (Word, PowerPoint, ...)

---

## Education

- 2021 - 2025 **Computer Science**, *Unisagrado*, Bauru - SP  
Studying the fundamentals of Computer Science.
- 2017 - 2020 **Technical High School**, *ETEC Comendador João Rays*, Barra Bonita - SP  
Technical High School with initial programming and logic learning.

---

## Open Source Projects

### Wild League - Gaming on Fediverse

Personal project implementing the ActivityPub protocol for a "tower defense" card game in real time, integrated into the fediverse.

### Vivaldi Browser - Translator

Voluntary translation of the Vivaldi browser from English to Brazilian Portuguese.

### CLI Dictionary, [github.com/cli-dictionary/cli-dictionary](https://github.com/cli-dictionary/cli-dictionary)

Command line dictionary in Python, available on Snapcraft with about 200 users and support for 13 languages.
